“ORDER IS THE VERY KEY OF LIFE”

LE CORBUSIER, THE MODULOR

Smart storage solutions are the key to order in our living and working environments. Aesthetically pleasing, highly functional and flexible, X_Cargo™ storage concepts from X_Change Office Solutions offer clean aesthetics and seamless design. With an architecturally designed core shell and a multitude of different configurations, X_Cargo™ has limitless potential for customisation. Designed by Australian architect Anthony Kotarac, X_Cargo is the state-of-the-art solution to creating effective, efficient and harmonious working environments, anywhere in the world.

X_Cargo™ storage concepts are designed to adapt to today's rapidly evolving work styles and technology. By using the space below and next to the workstation, as well as providing smart organisational tools and accessories, X_Cargo™ enables individuals and teams to better organise and access their documents, tools and technology.

An industrial steel product that is 100 per cent recyclable and features non toxic TGIC-free powder coat finish, X_cargo's slim and elegant 10mm profile offers refined lines without compromise on strength and durability due to it's fully welding shell.

Optional upholstered cushion tops allow one product to serve as both storage solution and occasional seating. Manufactured to order, X_Cargo™ offers limitless customisation of colours, sizes, functionality and finishes.

Make Space for Design.

X_Cargo™ storage concepts feature a choice of two handle designs, full-extension heavy duty ball bearing slides for ease of use and computer series locks with removable barrels that can be random, master-keyed or keyed alike.

X_Cargo™ offers a high degree of choice without complexity. Adjustable glides simplify alignment and compensate for uneven floors and, if fitted with castors, X_Cargo™ units can be moved easily and smoothly, even when fully loaded.

Architecturally designed Storage.

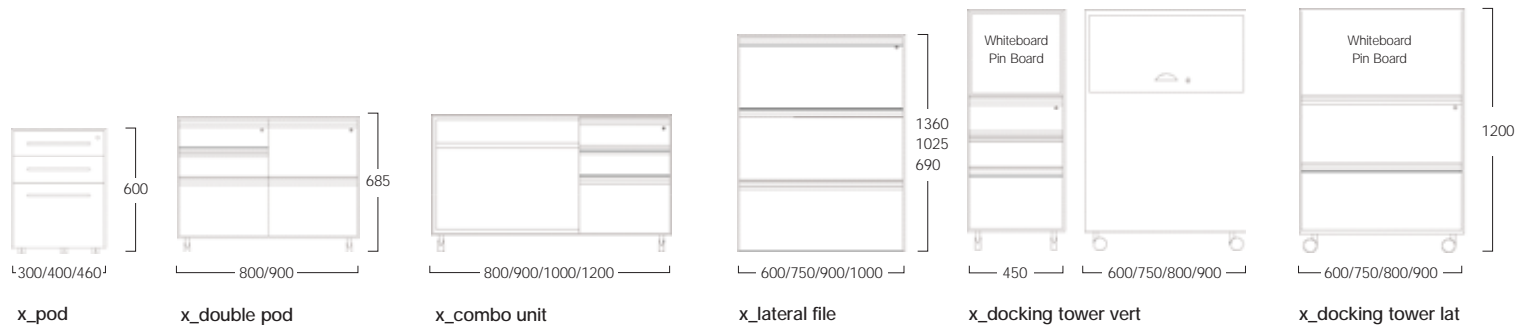

X_Cargo is a cost-effective, refined solution for today's office storage requirements, with the ability to adapt effortlessly to future needs.
