

Vibe

“ARCHITECTURE SHOULD SPEAK OF ITS TIME AND PLACE, BUT YEARN FOR TIMELESSNESS”.

FRANK GEHRY

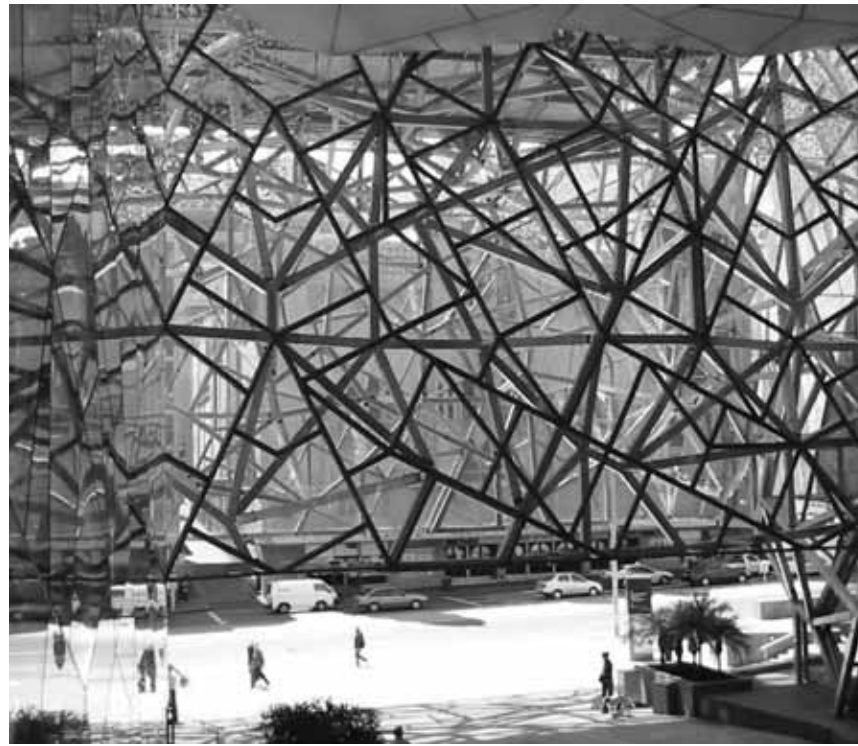

Pure and simple...Vibe desking is an office with a strong and determined character: essential and rigorous lines in perfect harmony. Light and agile, Vibe is the ideal solution for furnishing of shared working areas. Vibe's rational design is favored by details of style that enhance the purity of its shape. Vibe helps towards organizing work in a punctual and precise manner, because tidiness and transparency are the basic factors of its design philosophy.

Vibe – pure and simple.

Vibe – straight benching.

Vibe – 120 degree cluster.

The operative efficiency of Vibe transpires from the harmonious layout of its elements: its rigid lines are easily combined with its ergonomic curves. Balanced and discreet, Vibe furnishes efficient and dynamic work areas without putting aside a sober and elegant style. Workstations can be created with extreme simplicity, increasing concentration and assuring protection of privacy. Vibe is made up of a rigid yet extremely flexible structure in all of its configurations: "A" shaped legs, single leg bases adapt to any kind of operative requirement. An extraordinary level of furnishing flexibility through a complete range of storage options, all in perfect Vibe style. Beautiful and practical, the Vibe range proposes a wide variety of accessories that enhance functionality, all to the advantage of increasing productivity.

Vibe – operative efficiency.

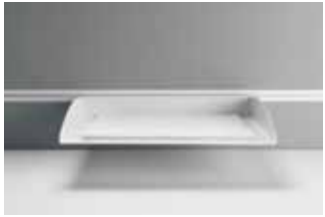

Mastering complex content and structures leads to clear articulation of thought; As clear decisions make successful managers convincing, an open mindset is visibly reflected in the furnishing style of Vibe: clean, simple lines and transparency are the hallmarks of a self-confident corporate culture.

Vibe – learn, adapt, evolve.

Vibe – integrated storage solutions.

Vibe: Architecturally designed desking system.

Vibe takes on the complexity of office furnishings using simple, multipurpose elements that provide efficient and functional solutions for complex configuration needs. The flexibility of the system makes it possible to modify even the simplest configurations, integrating them with straight or shaped desktops using an efficient system involving shared structural components.

These are our guarantee of fail safe service:

- A cost effective A-leg design.
- Modular frame system allows worktops of different shapes and sizes to be created easily and without unnecessary expense.
- 2400mm span between legs makes inexpensive, elegant solutions possible.
- Designed for rapid assembly in line with ergonomic principles by standing assembly technician.
- Facilities for fixing screens to enhance privacy and concentration, built-in power outlets, flat screen monitor support, storage space for office supplies, decorative elements to personalize your workspace
- Component materials are easy to separate for reuse or recycling.
